ACDC Let There Be Rock Limited Edition Pinball Machine by Stern

Looking for the ultimate holy grail for your gameroom? The ACDC Let There Be Rock Limited Edition Pinball machine is a legendary, investment-grade masterpiece that completely changes the game. Stern Pinball only produced a strict run of only 200 units worldwide, making this one of the rarest and most sought-after collector pieces on the planet. If you are a die-hard rock fan or a serious pinball collector, this is your rare opportunity to own a unique piece of arcade history. This specific ACDC Let There Be Rock Limited Edition Pinball unit has had very limited use and still comes with its original box, meaning it's in incredible condition and ready to rock your home or venue.

High-Octane Gameplay: A Masterclass by Lyman Sheats

Let's talk about why this table is widely considered one of the greatest music pins ever built. The groundbreaking rule set was crafted by the late, legendary programmer Lyman Sheats. It isn't just a game where music plays in the background; the entire playfield is the concert. Unlike the standard models, the gameplay mechanics here allow you to completely immerse yourself in the performance: Song Selection & Strategy: Right from the launch button, you choose your track. You can rock out to 12 classic AC/DC hits including Hells Bells, Thunderstruck, and You Shook Me All Night Long.

Multiball Stacking: The depth of the rules enables players to strategically stack and overlap three entirely different multi-ball modes simultaneously! When you get those modes running together, the adrenaline rush is unmatched.

The Underworld Lower Playfield: This LE model features a subterranean mini-playfield beneath the main stage, complete with its own mini-flippers and targets, adding a whole second level of intensity to your game.

MORE PRODUCT INFORMATION

Loaded with Premium LE Upgrades

This isn't just your standard Pro or Premium model—the ACDC Let There Be Rock Limited Edition Pinball packs a massive punch with exclusive factory upgrades you won't find anywhere else: Concert-Level Audio: Features a massive 12-inch subwoofer paired with an upgraded sound system for booming performance that lets you feel every bassline and guitar riff.

Physical Feedback: Equipped with a factory Special Shake and Quake shaker motor that vibrates the entire cabinet during explosive targets and multi-balls.

Stunning Visual Trim: Outfitted with high-gloss, laser-cut, powder-coated side armor (featuring a special backing plate), matching laser-cut backbox hinges, matching legs, front molding, and an eye-catching red transparent lower arch.

Collector's Authentication: Underneath the tough-as-nails hard-coated playfield, you'll find a genuine designer autograph. The cabinet also features a uniquely numbered plaque (1 to 200), an official Stern Pinball product hologram, and a signed Certificate of Authenticity (COA).

AC/DC Train Pinball Topper.

Why Buy From Arcade Classics?

When you are investing in a rare, top-tier collectable like the ACDC Let There Be Rock Limited Edition Pinball machine, who you buy from matters.
