The ITSF table authorised for competitions International, Master Series and Pro Tour. This freeplay version of the World Champion sums up the same excellent features as the coin operated model in a home product and is the official ITSF model for the international competitions of the category International, Master Series and Pro Tour. Used by the professional players in tournaments worldwide, it boasts competition score counters and leg levellers, rubbers on the bars and a distancer to keep the goalkeeper within the goal range, among the many others.
