PRODUCT INFORMATION

Jurassic Park Premium

Fitted with factory topper. Like the blockbuster movie, the Jurassic Park pinball experience generates heart pounding excitement as the player progresses through the game. As the game starts, the player is transported to Isla Nublar, an amusement park where escaped dinosaurs are running amok! The player's mission is to rescue park staff and recapture dinosaurs from the chaotic environment unleashed by Dennis Nedry's computer virus. All dinosaurs, however, are not created equal as players will battle Raptors and the mighty T. Rex! The game immerses players in the fun world of battling dinosaurs in an action-packed adventure filled with twists and turns. The Premium and Limited Edition models feature an amazing animatronic ball-eating, ball-throwing T. Rex that interacts with the ball and the player. These models also include an interactive Raptor and Raptor Pen featuring a ball-lock mechanism guarded by a motorized gate. The action does not let up with unique mosquito-in-amber pop bumpers and a custom metal horizontal helicopter spinner. "Jurassic Park is a classic film featuring what everyone loves----- – dinosaurs! The game is designed to be easy to play, but difficult to master," said Gary Stern, Chairman and CEO of Stern Pinball, Inc. The Pro, Premium, and Limited Edition models also feature a Jungle Adventure Vehicle target in the middle of the playfield that is a spinning Newton Ball. This kinetic target registers direct hits, determines the direction players navigate on the island during gameplay, and lights T. Rex modes. All models include three full sized flippers, four custom ramps, a spinning "Spitter" target, in-lane up/down lock post that sets up critical playfield shots and distinctive hand-drawn art highlighting iconic dinosaurs from the series.
